Car Dealer Partnership Guide

Meet the people who want to sell their car — Saudi Arabia

October 2026

What this is

Every day people ask for a free valuation of their car on our website. The ones who want to sell, and clearly agree that dealers may contact them, appear in your app: the car, its estimated value and how to reach them. You pay a monthly subscription; the deal itself is between you and the seller.

60 days

a seller stays visible to you

3 ways

to reach them: call, WhatsApp,
email

1 app

iPhone, iPad and Android, Arabic
and English

How it works

1

A customer values their car

On our website, with the free valuation tool. They say they want to sell.

2

They clearly agree

A separate box lets subscribed dealers contact them. Without it they never appear to you.

3

They appear in your app

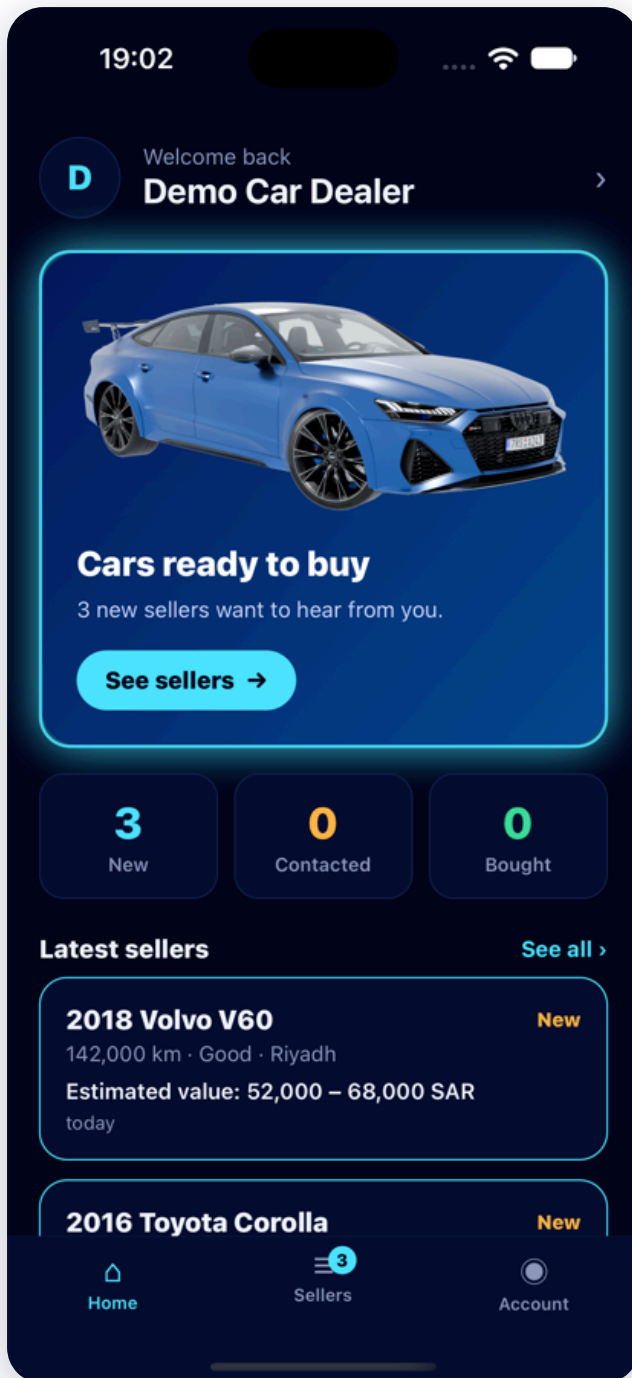

Car, mileage, condition, estimated value and city, for 60 days.

4

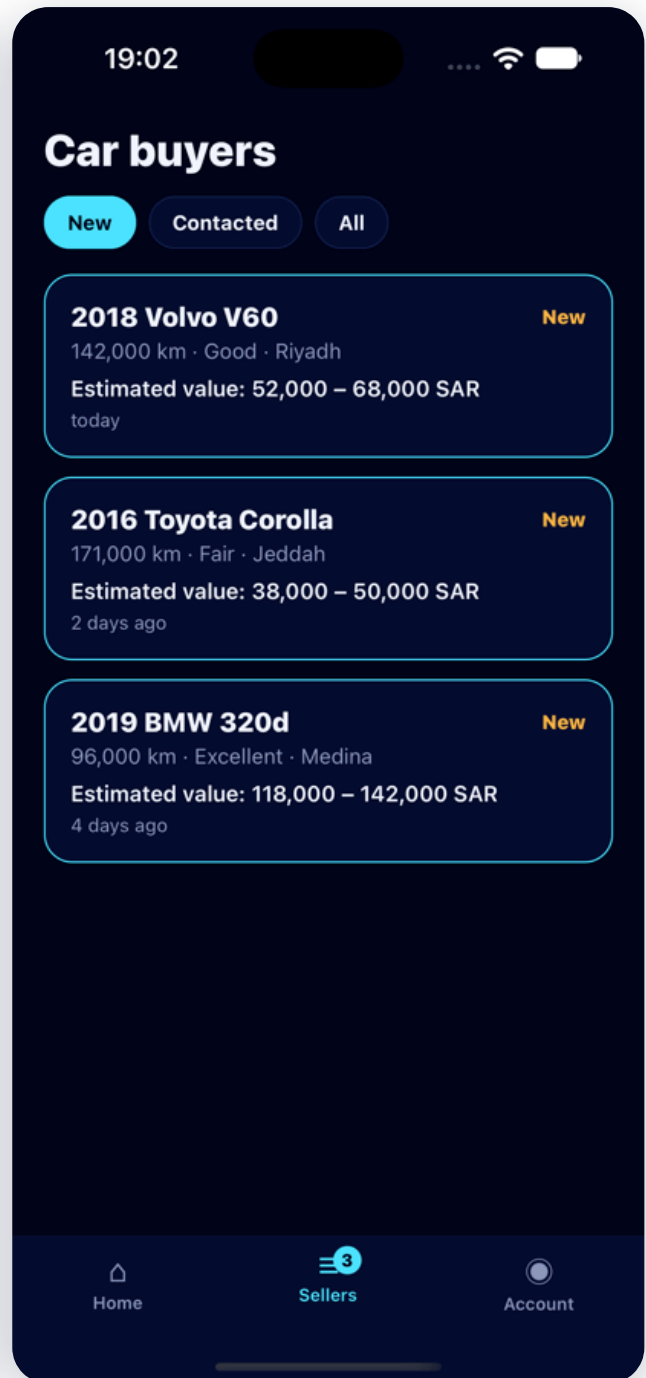

You reach out and track it

Call, WhatsApp or email, then mark: contacted, not interested or bought.

Rules for dealers

- Use the details only to talk about buying that seller's car.
- Never share or resell the details.
- Stop contacting anyone who asks you to.
- Accounts can be suspended for misuse.

Questions

Where do the sellers come from?

How long does a seller stay on my list?

60 days from their request, then they disappear.

Do other dealers see the same sellers?

Yes, a subscription gives access to the list, so being quick to reach out matters.
